## CHAUFFEURS DELINQUENT SAYS TAX COLLECTOR

Chauffeurs and garage repair mechanics as a class have paid fewer 1931 poll taxes than any other class of men, according to Jerome E. Richards, poll tax collector, who plans to start a garnishment drive on these delinquents next Monday. Many of these men own automobiles, and when judgment is entered against them, Chief Richards said Wednesday, those cars will be levied upon to collect.

There are some fewer than \$749 men in Shelby county and Memphis who have not paid 1931 poll taxes. For, with announcement that Chief Richards was planning a general garnishment drive against delinquents, poll tax business began to boom Wednesday. Any man who calls at the poll tax collector's office in the courthouse, and pays up before garnishment papers are served upon him will avoid the extra cost and trouble which garnishment proceedings will bring, Mr. Richards said.

## Hunt Other Sites For Preventorium Following Protest

At a meeting Tuesday afternoon for the Shelby County Tuberculosis society, action on the problem of housing the preventorium under consideration was postponed on account of the large number of protests from persons living in the vicinity of the proposed home, which is the Rogers place, on Poplar avenue near the Crossroads carline. A committee headed by W. H. Bayless was appointed to investigate other possible sites.

It is said that residents of the neighborhood misunderstand the object of the preventorium, thinking that it will be used to treat active cases of tuberculosis. This is not the case, according to a statement issued by the office of the society. This statement says that the preventorium will take care of children who are under-nourished, and therefore less immune than fully nourished children.

The statement continues: "There are as many children of wealthy parents who are under-nourished as there are of poor parents. This is due, not to the fact that they do not get enough food, but rather that they do not get the right sort. Thus preventorium will be a day and night school, dedicated to the use of under-nourished children. Most people think that these weak, unhealthy-looking children are a menace to the healthy children in the neighborhood. Such is not the case. The truth is that the healthy children are a menace to the weak, in that when they get a cold they are more likely to be taken off in nature's fight, which follows, the weak child is left very much weakened, and is in this condition, and as such should awaken no objections in the minds of forward citizens."

## JUMPED FROM AUTO: INSTANTLY KILLED

PINE BLUFF, Ark., June 2 (Spt.)—Johnnie Dawson, negro, aged 19, was instantly killed Monday night when he jumped from a rapidly driven automobile, which was being driven by a number of other negroes from the S. V. T. Knox plantation, near Fairfield, where they had spent the day chasing cotton. The accident occurred within sight of the negro's home. His neck was broken and his body and head were badly bruised.

It was stated at the inquest that the car was going about 15 miles an hour when the negro, without notifying the driver that he was near his home, jumped. He was thrown violently to the ground and one of the rear wheels of the car, driven by S. R. Howard, was exonerated from all blame in the matter.

A Home Cure Given By One Who Had It

In the spring of 1931 I was attacked by muscular and inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried nearly every remedy, and despite after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long looked-for means of curing your rheumatism, you may send the price of it, one dollar, but unless stand, I do not want your money unless you are perfectly satisfied. Send it. But that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

He alleges that she also contracted a disease. They were married in Houston, Texas, in 1916, he says.

Robinson's declaration, which was filed by Attorney Ralph Davis, states that he now is on duty at the marine barracks, Paris Island, Port Royal, S. C.
